

## Compute in Comfort

Turn your laptop into a desktop with Logitech's Alto notebook stand that integrates a one-piece notebook riser, which elevates your system to eye-level, three USB ports, a full-sized keyboard that includes a number pad, media panel, and a soft palm rest at its base. The Alto supports notebooks weighing up to nine pounds and takes less than 30 seconds to set up. It folds to a compact 16.8 x 9.3 x 1.4 inches for easy storage.

## Power + Simplicity

Become a professional photographer overnight with Nikon's 6.1-megapixel D40 digital SLR camera, which now features a compact and lightweight design, an intuitive interface, in-camera editing, and built-in help features that are displayed on its 2.5-inch color LCD. The D40 can shoot 2.5 pictures per second continuously for up to 100 pictures and comes with a 3X-Zoom Nikkor lens that accommodates everything from tight portraits to wide-angle landscapes.

## Safety First

Protect your data with Kanguru's Bio Slider II, an encrypted USB 2.0 flash drive that uses a biometric fingerprint reader to protect your personal information and confidential files from would-be snoops. The device stores up to ten fingerprints and allows users to set a recovery password in case of damage. It resists up to 1,000 Gs of shock, offers storage capacities from 256MB to 4GB, and operates on Windows 98/98SE/ME2000/XP. It comes with a one-year warranty.

## Good Find

ALK Technologies' tenth version of its CoPilot Live GPS navigation system for laptops and UMPCs (which includes navigation software, map data, and either a USB SiRFstarll or Bluetooth GPS receiver) ups the ante by enhancing its 3D maps and adding more than six million new points of interest and software that seamlessly integrates with other mobile applications. The CoPilot Live Laptop 10 contains text-to-speech technology, which pronounces complete road names and provides turn-by-turn directions to any address in the United States or Canada.
